## Investment Policy and Objective

The Stanbic Cash Trust is an open-ended unit trust fund. The primary objective of the Fund is to maximize short to medium-term income while preserving capital, through investing in a portfolio of fixed-income securities, including treasury securities, quasi-government securities and money market investments, while keeping the maximum weighted term to maturity at 24 months.

A minimum of 80% of the Fund's assets are invested in Government and Quasi-Government debt securities and up to 20% in selected money market securities, while retaining a minimum of 5% in cash.

## Risk Rating

|     |        |      |
|-----|--------|------|
| Low | Medium | High |
|-----|--------|------|

The slowdown in activity on the bond market and reduced access to liquidity has increased the overall risk of the fund from low to medium.

## Distribution

SCT does not distribute earnings. All earnings are reinvested in the Fund which impacts the net asset value of the Fund. Investors seeking to withdraw earnings will have to sell part of their units to realize their earnings.

## Market Overview

Ghana has made significant strides in addressing its debt sustainability challenges since its default in December 2022, completing its Domestic Debt Exchange Program by August 2023. An agreement with the bilateral creditors was reached in June, which is expected to unlock the next tranche of the IMF extended credit facility and additional financing from the World Bank in support of a 4-year Ghana Energy Sector Recovery Program. This development positions the country further on the path to recovery.
