## Investment Policy and Objective

The Stanbic Cash Trust is an open-ended unit trust fund. The principal objective of the Fund is to optimize investors' interest income in the short-term to medium-term and ensure liquidity and capital preservation under normal market conditions while keeping the maximum weighted term to maturity at 24 months.

A minimum of 80% of the Fund's assets are invested in Government and Quasi-Government debt securities and up to 20% in selected money market securities, while retaining a minimum of 5% in cash. The Manager may employ short-term tactical deviations from the policy mix of up to 10% of the assets under management.

### Risk Rating

|     |        |      |
|-----|--------|------|
| Low | Medium | High |
|-----|--------|------|

The slowdown in activity on the bond market and reduced access to liquidity has increased the overall risk of the Fund from low to medium.

## Distribution

SCT does not distribute earnings. All earnings are reinvested in the Fund which impacts the net asset value of the Fund. Investors seeking to withdraw earnings will have to sell part of their units to realize their earnings.

## Fund Review and Strategy

At the end of October, the Fund had total assets of approximately GHS 754 million, with ~26.1% invested in government bonds, ~0.4% in money market securities and ~73.5% in cash and near-cash investments. The main and sub-classes recorded year-to-date returns of 13.9% and 18.3% respectively, against a benchmark of 25.2%. The Fund's strategy to provide adequate liquidity will remain unchanged in the last quarter of 2024 by investing in short-term fixed deposits.

## Market Overview

Moody's projects Ghana to conclude its comprehensive debt restructuring efforts by June 2025, setting the stage for the country to exit sovereign default status by July 2025. This development underscores the government's efforts towards tackling the country's debt challenges. Successfully achieving this milestone would mark a significant turnaround for Ghana's economic trajectory, with notable implications for its financial markets.
